NASON PRODUCT INFORMATION BULLETIN

NISSAN NAVARA YD25DDTI TIMMING KITS & BRAKE VACUUM PUMPS

Thank you for purchasing another quality Nason Timing Kit. We wish to advise all customers that these kits do not contain the Brake vacuum pump gear in either of our single row or double row kits. This gear is **not** available from Nissan Japan as a separate part and can only be purchased with the Brake Vacuum Pump.

We strongly recommend that these units be replaced as not only do the gears themselves wear but the shaft bearings inside the actual pump also wear.

Part # BVP14650S

(OE 14650-EB70A)

Is the brake vacuum pump with the single gear.
