NASON PRODUCT INFORMATION BULLETIN

NISSAN NAVARA YD25DDTI TIMMING KIT & BRAKE VACUUM PUMP

Thank you for purchasing another quality Nason Timing Kit. We wish to advise all customers that this kit does not contain the Brake vacuum pump gear for the double row kit.

This gear is **not** available from Nissan Japan as a separate part and can only be purchased with the Brake Vacuum Pump.

We strongly recommend that this unit be replaced as not only does the gear wear but the shaft bearing inside the actual pump may also wear.
